Texts

Required: COPI, COHEN & FLAGE *Essentials of Logic*, Second Edition, ISBN 013238034X.

The first edition, or a recent edition of Copi & Cohen's *Introduction to Logic*, would be an acceptable alternative.

Recommended: BENNETT *Logic Made Easy*, ISBN 0393326926.

Some people find this book helpful as background reading. But it is not essential, and I seldom refer to it in class.
