9 Grove RT990, S/N 76134, 90 Ton, 1991, Cummins Diesel, 114' Main Boom, 56' Jib, NEW PAINT, Unit 7759. Located in Milwaukee, Wisconsin. $295,000.00

10 Grove RT635C, S/N 84957, 35 Ton, 1997, Cummins Diesel, 105' Main Boom, 51' Jib, Unit 6275. Located in Hammond, Indiana. $135,000.00
Better Value for Your Dollar

When you’re buying used equipment, ALL is the dealer to choose. Why? With ALL, you can be sure you’re getting the best value for your dollar and a long-term partner to help you get the most out of your investment. Whether you need cranes, aerial lifts, boom trucks, or other lift equipment, we are committed to your total satisfaction.

Buy Now, Save Now – Easy Financing

When it comes to financing, we remove the hassle and the headache. Financing a piece of equipment makes sense if you want to get the equipment you need without spending a significant amount of the working capital of your business. Complete the Credit Application at www.allcrane.com/LeasingFinancingApplication.aspx.
The Industry Leader

We are North America’s largest privately held crane and lift equipment rental and sales company. Our cranes for sale come from one of the largest, most modern, and most technologically advanced fleets of construction lift equipment in the nation.

Plus, every piece is maintained and serviced by our own technicians. Whenever you buy a new or used piece of equipment from ALL, you get the peace of mind that comes from working with a trusted resource in the industry. See our entire for-sale fleet at www.allcrane.com/BuyEquipment.aspx.
ALL TERRAIN CRANES

TechLines

The AT crane, with its multi-axle chassis and multi-wheel drive capabilities, gives you great mobility for both on- and off-road construction and industrial projects. Why buy from ALL? We take care of our equipment to keep it running like new.

In May, a total of 10 qualified technicians from the ALL Erection & Crane Rental Corp. Family of Companies successfully completed the manufacturer-sponsored Manitowoc Crane CARE GMK Level 5 course, the highest level of training that Grove offers outside of its own factory training center. All attendees passed the course on the first try. The technicians came from several ALL branches throughout the country to attend the class at ALL headquarters in Cleveland.

The Level 5 course covers calibrating LMI control systems and reprogramming crane hardware and software for all GMK models. Following the Level 5 course are two more levels to achieve Technician Certification, a comprehensive testing of a technician's overall knowledge and abilities. Such rigorous technician training programs surpass any industry requirement and demonstrate the ALL Family of Companies' commitment to invest in its employees.

**We Deliver**

In May, ALL Erection & Crane Rental Corp. acquired 18 new hydraulic detachable gooseneck trailers for its fleet from XL Specialized Trailers, Inc. The new trailers will be distributed among the company's 30 branches across North America in order to meet increased demand for immediate door-to-door crane and parts service.

The trailers are designed to easily transport cranes, parts, and other heavy equipment. The 65-ton capacity 120 HSG is especially suited for moving large-capacity crawler cranes and other large equipment.

Buying Not for You?

We’re the Crane Rental Leader

Our fleet is the broadest and deepest in the industry. We continually replenish our fleet with the latest—and greatest and most technologically advanced equipment. We maintain our existing fleet in our own shops, and we offer 24/7 service from 30 yards strategically located throughout North America. We make safety our top priority every day. Our complete service model includes lift planning, logistics, transport, and heavy hauling.

Bare Rentals

A new Bare Rental Q&A brochure is now available. It answers the most common questions customers have about bare rental agreements and explains the responsibilities of both parties— the lessor and the lessee. To get a copy of the brochure, go to:

www.allcrane.com or 800-232-4100
Few crane rental companies possess the potential for understanding machine behavior like ALL because very few fleets compare to ours. We have built an intranet complete with live maintenance forums so mechanics can share learned nuances of machines with other service managers across the nation. The goal is for this forum to grow deep with content and then to become a searchable library of crane "behavior," facilitating even more proactive maintenance.

Focus on Our Shops

Engine Shop
Our first Engine Shop opened in the 1970s to supply and repair engines for the ALL Erection & Crane Rental Corp. Since then, ALL has invested many millions of dollars in making sure their equipment stays up and running, including extensive factory training for technicians.

- Parts inventory and value:
  - Our vast parts department has more than 35,250 part numbers, with a multi-million-dollar investment in inventory.

- Engine inventory value:
  - We have more than 156 rebuilt and new engines in our warehouses.
  - Because we own three Manitowoc 21000, 1,000-ton crawler cranes, only ALL has a rebuilt 21000 engine — the only known exact replacement engine in the country for this crane.

- We are distributors/dealers for engines from:
  - Cummins
  - Caterpillar
  - John Deere
  - Deutz
  - Mercedes Benz
  - Lull
  - JLG
